

Improvement of framework conditions for innovation to promote Bioeconomy in the Danube Region

Project Partner

Made in Danube project consortium is comprised of 18 partners from 10 countries

About Made in Danube

The rising population and associated demand for renewable biological resources make **Bioeconomy a key element** for smart and green growth in Europe and the Danube Region.

Made in Danube intends to **improve the conditions** for transnational cooperation by developing open innovation tools which will match the needs of **small and medium-sized enterprises** with the expertise of research organizations by integrating three existing regional initiatives in the Danube Region:

1. Smart and innovative precision farming (Nitra, Slovakia)
2. Competence Center in Wood Sector (Vukovar, Croatia)
3. Biofuel (Novi Sad, Serbia)

Our Vision

Our vision is to create a networked stakeholder society where sustainable partnerships are built

The aim of the project is to **develop effective instruments** for successful commercialization of research results through companies at transnational level in the field of Bioeconomy.

Smart Agriculture

- Raising awareness of **smart-innovative-precision farming** for sustainable & smart agriculture
- Facilitating a broader discussion about benefits of **smart solutions in agriculture & farming** between different stakeholders
- Defining expectations from a wide range of stakeholders in the Danube Region for R&D role in improving the contemporary situation

Sustainable Forestry

- Establishing a technological platform to **support wood processors**
- Implementing a Competence Center that contributes to the development of **new products & technological processes**
- Creating a **Competence Centre** for wood sector competitiveness rising

Bioenergy

- Identifying the status of **biofuel production** and utilisation in Danube Basin countries
- **Identifying innovation offers** and potential innovation users, and establish contact exchange
- Identifying joint **activities for innovation demand**

Your Benefits

- **Gain new contacts** throughout the Danube Region in the field of Bioeconomy
- **Access** to widely applicable tools for innovation audits, technology requests and technology offers
- **Extend** international activities through participation in transnational R&D projects
- **Improve** competitiveness by joining a transnational network of Technology Transfer (e.g. Danube Transfer Center Network)
