

## Danube Logistics (DANLOG) ASP6

Danube Logistics, a Moldovan limited liability company, is the general investor and operator of Giurgiulesti International Free Port. In December 2004 Danube Logistics signed an investment agreement with the Government of Moldova for the construction of Giurgiulesti International Free Port (GIFP). Currently GIFP infrastructure includes several facilities as: Oil Product Terminal, Grain Terminal, Vegetable Oil Terminal, Bulk Cargo Terminal, Container and General Cargo Terminal, and Mixed-Gauge Rail terminal.

Giurgiulesti International Free Port' entire territory has a status of a Free Economic Zone until 2030. Due to its location on the Lower Danube with available water depths of up to 7m, GIFP can receive both inland and sea going vessels. Against this background GIFP serves its client as:

- The only direct sea/river-borne transshipment and distribution point to and from the Republic of Moldova.
- A regional logistics hub on the border of the EU with access to road, rail, river and sea.
- An excellent location for business development, because of its strategic location, tri-modal transport infrastructure, low cost environment and a unique customs and tax regime.

Danube Logistics as Associated Strategic Partner to Daphne project participates at meetings, and contributes to the elaboration and dissemination of project deliverables and results in cooperation with Pro Danube Romania.

The benefits for Danube Logistics and the respective territory by joining the DAPhNE project include the possibilities to raise attention to the waterborne opportunities in Moldova as part of the Danube IWT system using harmonized strategies, guidelines and procedures in regard to port development issues & port operations.

### **Danube Logistics' team:**
