

## ILR Logistica Romania SRL (ILR) ERDF PP12

ILR was set-up in 2012 and is the daughter company of Industrie-Logistik-Linz GmbH that is active in providing high quality logistic services all along the Danube. The company is specialized in offering transport logistics (internal transports and loading, transport organization for inland waterway vessels and trucks), distribution logistics (loading all kinds of steel products), packaging logistics (customized services depending on the type of cargo transported) & warehouse logistics (storage of all kinds of steel goods, warehouse administration). ILR is a logistics service provider along the entire Supply Chain, specialized in the field of industrial logistics that makes use of information technology, know-how, innovation and quality to create custom-made packages for logistics. Benefiting from the experience of the holding it is a part of, ILR has managed in just 4 years to stimulate the river transport in Giurgiu area, registering record values of 100.000 tons/year at the end of 2015. Furthermore, the company has been active in accessing EU funds for the development of an intermodal terminal in Giurgiu Free Zone Port in collaboration with the Administration of the Free Zone Area and the Giurgiu Municipality.
