

Open Innovation Labor - Testfeld

Open Call for Challenges

1. Name of the Challenge

Open Call

2. Content

We not only want to offer given challenges from companies, universities or public authorities. If you as a potential seeker have a challenge that you think fits in perfectly in the approach of our open innovation lab, we would like to invite you as well.

3. Problem

If you have any entrepreneurial challenge, where you believe a better or improved solution can be found, we would like to welcome you in our lab. If you have any topic you are interested in, please let us know and we can have a look together on how we could build an interesting challenge. Together with the topic we would search for an adequate mentor guiding the challenge.

4. Additional Information

With the topic we would search for an adequate mentor guiding the challenge.

You can apply the suggestion of the topic as a single person or as a team.

5. Skills of the team

In regards to the topic you should challenge should take a great interest in suggested topic and bring if any basic knowledge in this area and related technologies.

It is imported to be open minded towards new technologies and to have the vision what possibilities the new technologies can bring.
