Public transport system in Prague:

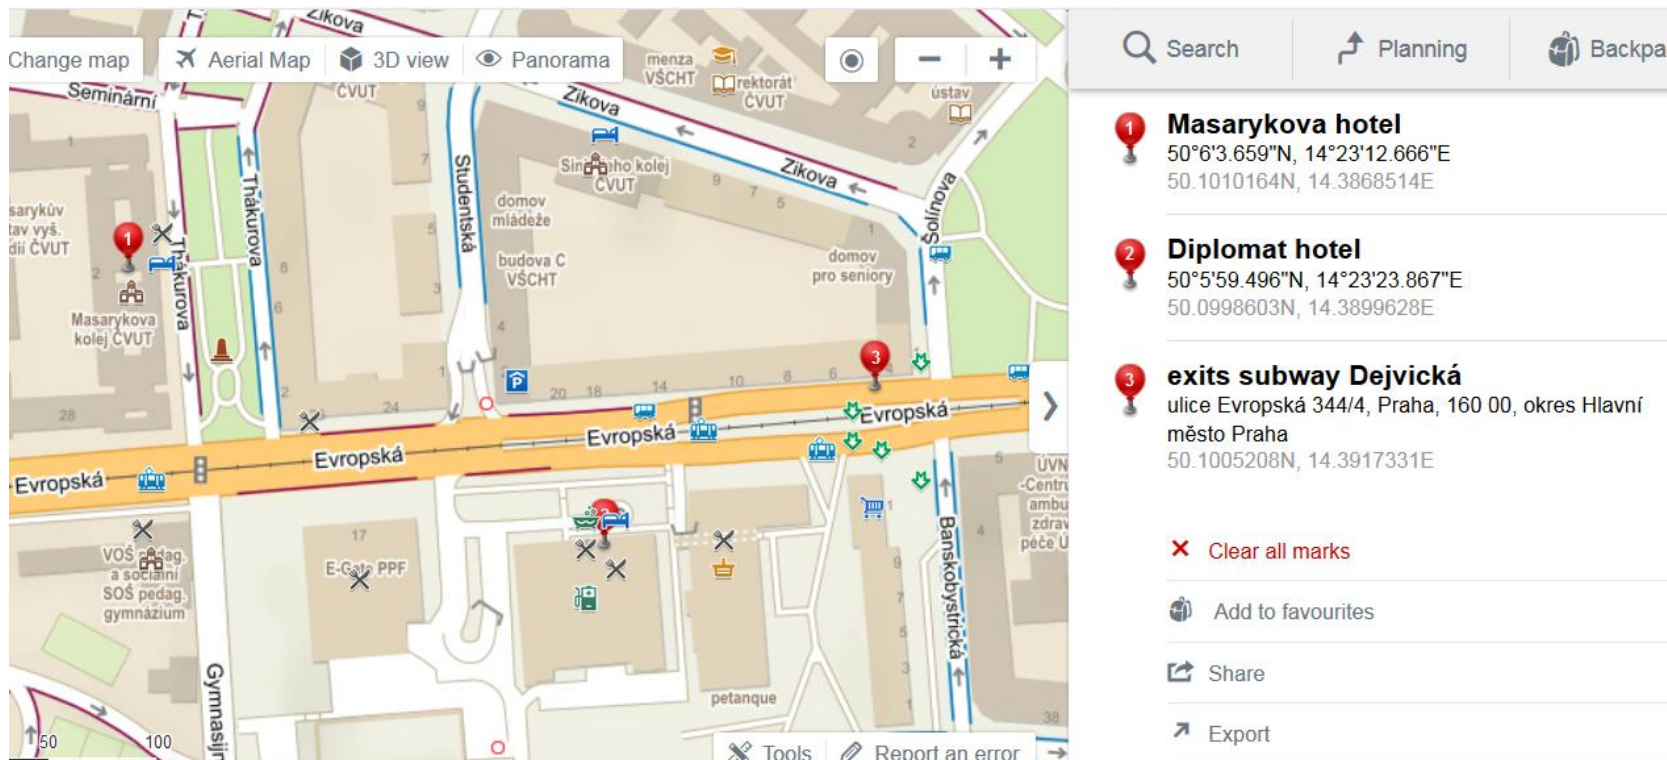

Prague generally has a very good, fast and effective public transport system: <http://www.dpp.cz/en/>

You have to buy your ticket – for single trip/for day/for more days. Single trip tickets are limited by duration of your trip (30/90 minutes). Tickets can be bought at slot machines, at tobacco shops, or directly at bus driver (for higher price). You can also pay by SMS. <http://www.dpp.cz/en/fares-in-prague/>

Single tickets have to be marked at the entrance to the vehicle or to subway. The system of public transport in Prague has recently been fully linked to Google maps, therefore you can easily search for connection within the city using public transport:
