## **CREATING MEMORABLE EXPERIENCES**

### **AN INTERDISCIPLINARY JOURNEY TO ART AND HISTORY**

#### Policy Learning Platform, Working Group Meeting 6 (WM6)

Friday, 12 October 2018, 9.00 – 14.00, Salzstadel, Weiße-Lamm-Gasse 1, Regensburg

The Danube region is characterized by rich tangible and intangible cultural heritage. The *Danube Culture Platform – Creative Spaces of the 21st Century* dedicates itself to the hidden heritage which is situated below ground level (e.g. archaeological sites), destroyed, banned or repressed for political or societal reasons, disappeared, little known or of immaterial nature.

The arts are an effective tool for the interpretation of hidden heritage, but these interpretations need to be made easily available and visible to the public. The interpretation of hidden heritage is a sensitive issue, but also an issue of vital importance for the connections in the Danube region.

The first part of the workshop “Developing cultural routes strategies” will discuss a proposal for an interpretation framework for the hidden heritage in the Danube region and its possible contribution to the European cultural routes.

The second part of the working group meeting “Artist-in-Residence programmes as a tool for facilitation of history” aims to bring together those responsible for Artist-in-Residence (AiR) organizations to discuss the idea of establishing an AiR platform of existing AiR centers and programmes for the Danube region. We are looking for answers to specific questions and discussion on the conceptual and practical level with experienced AiR partners of the Danube region. Participants from Germany, Austria, Slovakia, Hungary, Romania and all project partners of the *Danube Culture Platform – Creative Spaces for the 21st Century* will attend the meeting to share their best practice examples regarding the exchange of artists along the Danube.
