

CAMARO-D

Cooperating towards **A**dvanced **M**anagement **R**outines for land use impacts on the water regime in the **D**anube river basin

The project

14 partners from 9 countries
Duration: 01/2017 – 06/2019
Project budget: 2,588,138 €

3 pilot action clusters

Series of stakeholder workshops
GUIDR (Guidance for sustainable land use planning), LUDP

Focus of Vienna Water

Vienna Water has long lasting experience in cooperation with other stakeholders. Vienna Water will engage in the development of improved and good land use practices in order to protect water resources. Results will be shared within the partnership and with other interested parties

CAMARO-D aims at the improved protection of water resources and flood risk prevention by developing comprehensive recommendations towards a strategic policy for the implementation of an innovative transnational catchment-based “Land Use Development Plan” (LUDP)
