PARTNER PORTS WITHIN THE DAPHNE PROJECT

DANUBE PORTS NETWORK AT A GLANCE

Created: 23 August 2018
Last Updated: 04 September 2018

A "DAPHNE" Project - based spin-off initiative, the Danube Ports Network is a new actor in the Danube Region port governance system. With the support and collective effort of its partners, the Network shall become a long-term, sustainable structure contributing to good port governance and cooperation strengthening in the Danube Region.

The Danube Ports Network (DPN) will bring together public and private ports and terminal operators from the Danube Region willing to engage in a long-term, active and coordinated cooperation process benefiting the port industry and regional economy at large.

Through its activities, the Danube Ports Network will:

About the DAPhNE project

The overall scope of the DAPhNE project is to reduce the knowledge, development and innovation gap between the Western and South – Eastern European Danube ports, and thus facilitate the Danube Region ports becoming efficient, sustainable elements of the overall EU transport and logistics system. In this sense, the envisaged activities aim to improve port legislation, funding of port investments (State Aid Schemes and Public-Private Partnership models), port administration processes, port business strategies as well as port infrastructure & industrial development strategies. Special attention is also paid to human capacity building and eco-improvement options for the port sector.
