Excellence in Research, Social and Technological Innovation Project Management has received funding from the European Union's funds (ERDF, IPA)

Strategy & Roadmap

What is the ReSTI Strategy and Roadmap?

The S&R document provides a summary of current challenges to the management of science, technology and innovation projects in the Danube macro-region.

Who should read the S&R?

The document reflects the opinion of and targets the broadest segment of relevant stakeholder groups, i.e.

- regional and national policy-makers, or
- policy influencers dealing with research and innovation

Find the ReSTI Strategy and Roadmap here:

What we do

Project Scope

In the era of the Fourth Industrial Revolution, the Excellence-in-ReSTI project is bringing together key stakeholders to bridge the gaps in managing Research and (Social and Technological) Innovation Project Management by young project managers in the Danube region.

Results

The three main products of the project are ReSTI.academy training programme, Strategy and Roadmap for building institutional framework and Infodesk for a comprehensive support in the area of R&I project management.

Note: Project contents are free for use and some of them are also adaptable (Creative Commons Licence) after Project closes.

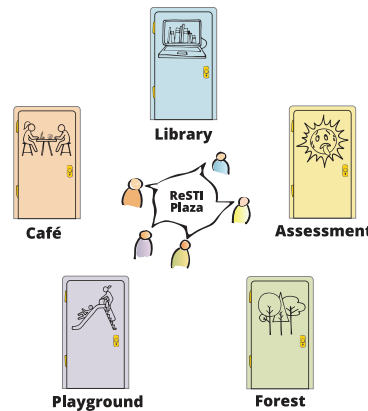

For more information on the Excellence-in-ReSTI project please check our official website

Handbook for institutions

The ReSTI Handbook addresses organisations and their trainers who wish to use the ReSTI Programme as a scaffolding for their own educational offers that may take participants through all or parts of the programme. The handbook offers recommendations for engagement and outlines opportunities for face-to-face support for each module.
