

Summary of the Regional Action Plan

The Regional Action Plan for the Republic of Moldova is built on the DanubeChance2.0 main findings during the landscape screening process and learning events within the project. It is focused on imperative measures to facilitate the access of entrepreneurs to a second-chance and benefit from tailor-made support. The actions are directed towards entrepreneurs who want to restart their business, entrepreneurs in crises and those who are just starting their business and want to learn from others' precedent. The Regional Action Plan will focus on initiating cultural change by promoting articles and stories about second-chance entrepreneurs, also on including 2ND chance policies into the business support policies, advocating the implementation of an Early Warning Mechanism in Moldova and applying for available funding, and on using of the "Trial and Error" Re-Design Transnational Academy methodology and content to improve existing educational programs for entrepreneurs.
