

## Interprofessional education for professionals in dementia care

**WHY INDEED** About 1.6 million people are currently living with dementia in the Danube region \* The INDEED project aims to improve the quality of life of people with dementia and their families, by providing education and training for professionals involved in dementia care.

### WHAT WE PROVIDE 16 workshops testing an online learning platform for doctors, nurses, social workers and entrepreneurs

The INDEED educational intervention has been piloted in workshops and on an online learning platform.

The workshops and online learning platform:

**educate** by providing high quality information on symptoms, causes, timely diagnosis and treatment options

**connect** by supplying networking tools and creating a shared knowledge base on person-centred dementia care

**innovate** by promoting entrepreneurial activity regarding services for people with dementia

### KEY RESULTS Interprofessional dementia education is valuable in up-skilling professionals working in dementia care. Well-trained professionals are key for quality of life of people with dementia.

*Each item was rated from 1 (worst) to 5 (best) by 160 participants*

**WHO CAN PARTICIPATE?** Everyone interested in increasing the professional skills and competence in improving care and quality of life of people living with dementia!

The workshop enlarged my knowledge about dementia.	4,5/5
