

National Cycle Plans/Strategies - a corner stone for the implementation of the Pan-European Masterplan for Cycling Promotion.

Webinar organized in the course of the 5th High-level Meeting of THE PEP

Tuesday, May 11, 2021 from 9:00am-10:15am

You would like to learn more about the benefits of having a national cycling plan/strategy? Get inspired by the experiences of national cycling officers working with these strategic documents in their everyday life.

Elaborating national cycling plans/strategies in the countries of the pan-European region is one of the specific objectives of the pan-European Master Plan for Cycling Promotion that will be adopted during ministerial session 3 (Date: May 18th, 2021 Time: 10:00am - 11:15am CET) in the course of THE PEP High Level Meeting.

Hosts: Austrian Federal Ministry Climate Action, Environment, Energy, Mobility, Innovation and Technology in cooperation with the Ministry for an Ecological Transition of France and the European Cyclists' Federation (ECF).

Target group of the side event: National authorities responsible for the promotion of cycling in the countries of the pan-European region and other experts interested in the promotion of cycling.

Participants are invited to engage in the discussion with the experts on the panel by using the live chat function!
