Danube Transnational Programme

DanubeChance2.0

MENTORING COUNTRY

RESPONSIBLE PARTNER

STEINBEIS
2i

The application for the mentoring program initially includes a self-evaluation and assessment of the candidate's personal situation. This is followed by a personal interview with advisors from S2i, in which the criteria for a successful re-start are jointly analyzed. Subsequently, entrepreneurs are referred to additional expert advice, relevant funding content or programs, depending on their individual needs.

Interested entrepreneurs can still apply for the program until 31 August.

Link for the application :

At the moment in Germany there are 2 confirmed candidates, who are now in the process of reorganizing their financial business situation together with an expert. The current candidates are active in the field of security IT service and tutoring for students. After clarification of their financial situation, they may be put in contact with other experts, depending on their personal situation and additional needs.

As a general first step in the mentoring process, S2i's expert for business consultancy and financing helps the candidates to analyze their financial situation, identify opportunities and take the necessary steps towards financial restructuring.
