

HUN-SK Transnational workshop

Date: 18-20 May 2022

Team: CEEweb, MATE, WWF SK

Purpose of the transnational workshop

- Share and discuss the draft cross-sectoral operational plans with an international audience with the aim to sharing experience across borders and elaborate robust measures for the respective pilot area
- For a better understanding of problems in the area, a field trip to the area/ bottleneck areas is planned
- Discussion on stakeholder involvement & drafting a case study for the handbook
- Recommendations for the improvement of the CSOP
- Preliminary conclusions & lessons learnt for our work in the pilot area
- Developing an assessment methodology for ecological corridors: a case study on the planned section of the M2 motorway

Location: Nógrád pilot area (Hungary) - Novohrad pilot area (Slovakia)

Target groups

Approx. 15-20 are expected to join

- Pilot area leader
- At least one representative of each SaveGREEN pilot area
- At least one representative of the local working group (representative of authorities, ASP etc.)
- Experts from the national and international level (eg. representatives IENE network)

Registration: <https://forms.gle/nWYEe6pPVh9f2vFz7>
