

# LOCAL CROSS – SECTORAL ACTION PLANS

**HUN-SK Transnational workshop,**  
**18 – 20 May 2022**

Project co-funded by European Union funds (ERDF)

[www.interreg-danube.eu/savegreen](http://www.interreg-danube.eu/savegreen)

## LOCAL CROSS – SECTORAL ACTION PLANS

---

*Main outputs expected:*

Participatory development of 8 Cross-Sectoral Operational Plans (CSOPs) for addressing ecological corridors' functionality

&

Partial implementation of the CSOPs during the project duration in Pilot Areas.

## LOCAL CROSS – SECTORAL ACTION PLANS

*Where?*

In 8 pilot areas located on critical ecological corridors

7 countries of the Danube Region

*The Proposed Structure*

1. Pressures & threats
2. Specific objectives to address P&T
3. Sectors
4. Stakeholders & Main actors
5. Problems, Measures & Actions
6. Tools, methodologies, ...
7. Locations
8. Calendar
9. Indicators & monitoring
10. Resources
11. Relative priorities
12. Comments / feedback

## LOCAL CROSS – SECTORAL ACTION PLANS

---

### CSOPs – Stage 1

Common structure: logical framework & descriptive part

Threats / pressures

Specific objectives *(to address the threats/pressures)*

Main actors

PA overviews *(landscape specifics, sectors & species of interest, major barriers for connectivity)*

## CSOPs – Stage 2 & 3

### Identify problems

(what could prevent specific objectives to be met?)

### Draft Measures

(what is needed to solve the problems?)

### Draft Actions

(what are the concrete, specific steps to implement the measures?)

# LOCAL CROSS – SECTORAL ACTION PLANS

*Status...*

| Pressures & threats                                   | Specific objectives  | Sectors of interest                                  | Main stakeholders & actors | Problems  | Measures | Actions |
|---|--|--|----------------------------|---|----------|---------|
| ✓   | ✓  | ✓  | ✓                          | ✓   | ✓        | ✓       |
| ...   |  |  |                            |   |          |         |
| 7. Lack of coherent monitoring at landscape level ... | 1. Facilitate the implementation of an integrated monitoring programme ...                       | <b>STAGE 1</b><br>Theoretical / generally applicable |                            | <b>STAGE 2 &amp; 3</b><br>Collect specifics + create catalogues   |          |         |
| 8. Reduced support from stakeholders ...              | 1. Facilitate networking...<br>2. Facilitate information, awareness, education, communication... |  |                            | <ul style="list-style-type: none"> <li>➤ Tools</li> <li>➤ Libraries of resources</li> <li>➤ Common data base</li> <li>➤ Descriptive part</li> </ul> |          |         |
|   |  |  |                            | ✓ (cross-)Sectoral Project Logframe(s)  |          |         |

Stakeholder engagement (**throughout the project**)  
incl. formal or informal working groups

Types of involvement / roles:

- Inform
- Consult
- Work together / Delegation
- Collaboration in decision-making

### First Drafts CSOPs

- Assess similarities, complementarity and we will start updating CSOPs based on exchanges at project level
- Identify PA specifics & common themes of interest

### Transnational workshops

Aim – address LOCAL needs (based on concrete case study)  
+ involve stakeholders at PROJECT level  
+ invited external experts  
Contribute to CSOP, knowledge exchange

## LOCAL CROSS – SECTORAL ACTION PLANS

---

IENE 2022 International Conference  
September 2022, 19 - 23,  
Cluj-Napoca, Romania

The main theme:  
“An integrated approach for mainstreaming biodiversity  
into transports”

SaveGreen is a partner project!  
Cross Sectoral Operational Plans will be discussed in a workshop.

You are all invited!

## LOCAL CROSS – SECTORAL ACTION PLANS
