

STUBA / WAND 2022 in Bratislava  
Guided Tour on 11 June 2022, at 13.00  
Attendance: 42 participants (general public)

In 2022, Bratislava celebrated the World Art Nouveau Days for the second time as a part of the activities within the international Art Nouveau 2 project, supported by the Danube Transnational Program. The Faculty of Architecture and Design STU in Bratislava, has prepared on this occasion again a free thematic guided tour of the city for the general public on the topic “Art Nouveau in Bratislava” in cooperation with the Bratislava Tourist Board. The guided walk was aimed at the general public interested to discover the architectural gems of the Art Nouveau in Bratislava, which – at that time called Pressburg or Pozsony – was influenced by the currents of the Viennese and Budapest Art Nouveau. The guided walk covered several buildings in the historic centre of the city and its close proximity, many of which are characterized by ornaments and sculptures of plant and animal motifs, often combined with historical elements. Among the selected buildings are residential houses, public buildings, schools and a church.

SECESIA  
V BRATISLAVE

Vychádzka

11/6/2022

sobota — 13:00 hod.

Cool Nouveau

From city ring to ornamentation / Od mestského ringu k ornamentu

Slovak University of Technology in Bratislava

Faculty of Architecture and Design

Námestie slobody 19, 812 45 Bratislava, Slovakia

May 30 - June 21, 2022

On the occasion of World Art Nouveau Day, the Cool Nouveau exhibition From city ring to ornamentation is also being reinstalled at the premises of the Faculty of Architecture and Design in Bratislava.

The exhibition presented Art Nouveau in Bratislava as a *Gesamtkunstwerk* embracing urban concepts, architecture and the artistic embellishments characteristic of the era. It concentrated particularly on the phenomenon of the *Ringstraße* and other ring roads whose construction had an impact on the architectural designs selected for the buildings along them, whose shape and typology best reflect contemporary trends.

From city ring to ornamentation
