

Map 30. Hydrological Alterations - Impoundments: Current Situation 2015

Updated ITRBMP 2019

* This map illustrates full water bodies which are affected by impoundments. The exact locations of individual impoundments are not visualised.

This map is based on national information provided by the Tisza countries (HU, RO, RS, SK, UA), except for the following: EuroGlobalMap v2.1 from EuroGeographics was used for national borders of HU, RO, SK and UA; Shuttle Radar Topography Mission (SRTM) from USGS Seamless Data Distribution System was used as topographic layer.
