Summary

This software delivery document summarizes the delivery for the ENVIRONET HyMeDES Software implemented in the DAREFFORT project.

The ENVIRONET HyMeDES Software meets all the acceptance criteria as defined in the requirements document and project scope statement.

Transition to Operations has been completed. The software has been installed either as a

☒ Data Node including the country specific conversion filter (Option A)

or as a

☐ Conversion Plugin including the country specific conversion filter on the Distribution Node configured for pulling the data (Option B)

The software has been tested and evaluated to verify that all deliverables meet performance, functional and quality requirements defined within the DAREFFORT project.

The Software has been handed over to Operations and the transfer of knowledge from the Project Team to Operations has also been completed. The technical staff of the operation institution has received a training how to install and use the ENVIRONET HyMeDES Software either during the Workshop on Software Topics on 27th May 2020 or in individual training workshops.
