

## DANUBE FLOODPLAIN - 2ND DANUBE FLOODPLAIN WEBINAR - FLOOD RISK MANAGEMENT AND NATURE-BASED SOLUTIONS

24-09-2021

Floodplain restoration measures are among the most well-known nature-based solutions for flood risk reduction but practitioners see their limitations in comparison to technical measures when considering both their effectiveness and profitability.

The Danube Floodplain project specified on the NBS of floodplain restoration and studied its potential consequences in five pilot areas. However, other projects also dealt with this topic and considered other measures to solve flood-related problems.

Join the 2nd Danube Floodplain webinar on 7 October and learn about successful examples and understand potential issues of the design and implementation of NBS for flood risk management.

### Main goals of the webinar:

- Showing examples of successful nature-based solutions for flood risk management.
- Connect different projects (and additional interested parties) that deal with nature-based solutions for flood risk management: what are common points and differences in the results?
- Understanding potential open questions and issues connected to the design and implementation of NBS for flood risk management.

**Date:** 7 October 2021 9-11 AM CEST

**Register here:** ZOOM (<https://us06web.zoom.us/meeting/register/tZAtc--srzksHtL2WfZCuPYHR7HFTvSbvhwg>)

### Agenda:

9:00 – 9:15 Introduction with short poll questions for the audience

9:15 – 9:25 Introduction presentation by Prof. Markus Disse

9:25 – 10:10 Panel presentations

9:25 – 9:40: PHUSICOS (Dr. Aude Zingraff-Hamed, Technical University of Munich, Chair for Strategic Landscape Planning and Management)

9:40 – 9:55: RECONNECT (Prof. Zoran Vojinovic, UNESCO-IHE Institute for Water Education )

9:55 – 10:10: ProNaHo (Prof. Markus Disse, Technical University of Munich, Head of Chair of Hydrology and River Basin Management)

10:10 – 10:30 Panel discussion

10:30 – 10:50 Q&A

Programme co-funded by European Union funds (ERDF, IPA, ENI)
