Interreg

Danube Transnational Programme

D-CARE

EUROPEAN UNION

We care smart!

We provide an online learning environment for older adults, their social networks as well as health care professionals. To sustainably improve the conditions for smart care innovations **D-CARE** engages policy makers all over the Danube region in the policy learning center. **D-CARE** responds to the stretching of health care systems by building capacities, increasing competences, connecting transnational actors and generating innovative smart care models.
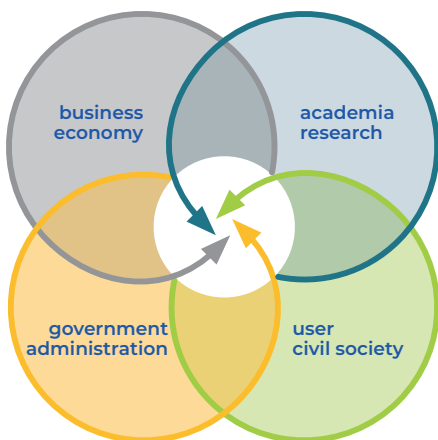

Be part of it

Join our regional smart care labs to fuse your expertise for pratice-oriented innovations

Develop your smart health and care skills online

Shape the policies in your region

Our Vision

Interreg Project D-CARE works to generate sustainable innovation for smart health and care services in the Danube region.

Hereto, we build strong national and transnationally connected innovation ecosystems involving stakeholders from the quadruple helix – business, government, academia and user or civil society.
