FORESDA	Forest-based cross-sectoral value chains fostering innovation and competitiveness in the Danube region
LIAP	LIAP = Project output 3.2 Local Innovation Action Plans
PP	Project Partner
ASP	Associated Strategic Partner
RIS	Regional Innovation System
SME	Small and Medium Enterprise
FBI	Forest-Based Industry
TT / KT	Technology Transfer / Knowledge Transfer
BIM	Building Information Modeling
HR	Human Resources
RTD	Research and Technological Development
IT	Information Technology
EC	European Community
DIH	Digital Innovation Hub

2. EXECUTIVE SUMMARY

The Transnational Strategy on Cross-sectoral Level, designed for improving the framework conditions for forest-based cross-sectoral value chains were developed by the whole FORESDA project consortium and this strategy reflects in the Local Innovation Action Plan for improved cross-sectoral innovation processes for the SMEs of the forest-based sector of Slovenia. For the project region Slovenia the Wood Industry Cluster, Slovenian Forestry Institute and UNI Ljubljana, Biotechnical Faculty were involved on the development of the Local Action Plan.

The objective of this document is the identification of important topics of the FBI sector in Slovenia and planning the realization of most relevant activities inside the FORESDA project to promote the sector supporting organizations/network and to increasing of innovative cross-sectoral collaborations.

3. METHODOLOGY

The following LIAP for improved technology transfer and innovation processes in SMEs of the forest-based sector is defined specifically for the project region Slovenia, as one of the main outputs of the FORESDA project ([Interreg Danube Transnational Programme](#)). All LIAPs (O.3.2) should be developed in coherence with the set Transnational Strategy (O.3.1), which aims to improve the framework conditions for forest-based cross-sectoral value chains and describes how the project will address identified needs with respect to the regional innovation systems (RIS), and with a focus on cross-sectoral aspects. The LIAPs on the other hand, should specify the concrete implementation – activities, timeline, responsibilities, and measurable objectives – of the Transnational Strategy elaborated at the project level in each region. Accordingly, a validation workshop has been organized in each region, and the participants - relevant stakeholders from FBI and RIS environment - had the opportunity to discuss and contribute to the proposed actions and measures. Their comments and suggestions are integrated in the document and therefore the LIAP reflects the real market needs on the local level.

4. PROJECT REGION/COUNTRY CONTEXT

The RIS in Slovenia is quite well developed but still needs to be more adopted to companies' needs. Between most critical issues are efficient TT / KT, digital transformation, open innovation concepts, cross-sectorial RTD collaboration and assuring stable financing of the applicative research to assure fast implementation of new technologies and knowledge in companies to raise competitiveness.

Wood is an important national strategic raw material for Slovenia; however, its potential still needs to be exploited. The overall image of the FBI in public, media and policy level is quite well and is still improving. Action plan "Wood is beautiful" is an operational document for increasing the competitiveness of the entire forest-wood value chain, adopted by the Government of the Republic of Slovenia in 2012. One of the Slovenia's goals is to process as high share of wood as possible at the national level, and then export it (added value). Following the drastic fall in 2008, the FBI industry began to grow in 2012. Drop in the number of employees in FBI for about one third was noticed, but at the same time also raising of the innovativeness and optimization of the business processes in the companies and marketing. At the moment, FBI exports over 52% of revenue, mostly on high developed EU markets. The greatest potentials of the wood industry are found in the field of building construction (one and multi-storey buildings), interior (smart) furniture and building furniture (windows, doors). Moreover, opportunities for wood industry can also be found in the use of wood hybrid composites (nanocellulose, wood modification and in a combination with other materials). A special emphasis is also oriented to the cascade use of wood as a part of the circular economy. On the wood construction field, too little attention is paid to the moisture content of wood. Given the current popularity of the use of wood in building construction and at the same time lack of national regulations in this area, there is a great danger for the potential bad reputation of the wood construction in the upcoming years. The problem also lies in the fact that when choosing contractors in public tenders, the determining factor is the price and not the compliance with standards and references. Clear

standards in timber construction, usage of the Green Public Procurement and establishing the wood moisture monitoring of public wooden buildings should be set. Between main topics needs to be improved in order to boost innovations and cross-sectoral activities within Slovenian FBI, are **TT / KT, training, digitalization of companies (including BIM), strengthening the sectorial support organizations/network and cross-sectorial RTD collaboration. Special focus should be also on topic of durability of wood in wood constructions.**

5. FOCUS, OBJECTIVES AND IMPACTS

5.1 IDENTIFICATION OF ALL PRIORITY NEEDS

Based on the previously performed activities on WP3 (regional mapping, transnational strategy, joint action plan...), this document represents an overview of the main actual needs of the project region Slovenia to improve technology transfer and innovation processes in SMEs of the forest-based sector and to improve framework conditions for forest-based cross-sectoral value chains.

Priority area 1 - Image & Lobbying

- International promotion of the Slovenian wood product
- National campaigns for wood use
- Coordination of the existing initiatives for promotion of the wood use and innovativeness in FBI

Priority area 2 - Policy & Legislative Support

- Supporting SRIP – Strategic Research-Innovation Partnership
- FBI sector strategy preparation and action plan updating
- Proposals for new legislation related or affected the FBI

Priority area 3 - Funding & Business Environment

- Bridging RTD & Companies, sectorial TT / KT developing
- Promotion of collaboration of FBI with other industries (e.g. IT – digitalization)
- Sectorial oriented public calls for RTD projects (products, services, business models and investments in equipment), especial cross-sectoral
- Fostering inter and cross sectorial company cooperation, added value chains
- Financing support of relevant RTD and intermediary institutions in sector
- Supporting internationalization of the companies

Priority area 4 - Education & Human Resources.

- Permanent Competence center for HR development in FBI sector
- Promotion of education and professions in FBI sector

5.2 IDENTIFICATION OF NEEDS TO BE ADDRESSED IN THE FRAMEWORK OF FORESDA

The following section figure out the actual short-term needs to be addressed in the framework of FORESDA in the project region Slovenia, based upon the more general and longer-term needs previously described in the sub-chapter 5.1. and that **the concerned partners (WIC and SFI) plan to address via the present Local Innovation Action Plan**. This means that this sub-chapter only addresses the needs to improve technology transfer, innovation processes in SMEs and innovation framework conditions for forest-based cross-sectoral value chains that will be addressed until the end of the project, namely by June 2019.

Priority area 1 - Image & Lobbying

Identified short-term needs for the project region Slovenia:

- International promotion of the Slovenian wood product

Priority area 2 - Policy & Legislative Support

Identified short-term needs for the project region Slovenia:

- FBI sector strategy preparation and action plan updating
- Initiative for new legislation related to the FBI (with focus on durability of wood in constructions)

Priority area 3 - Funding & Business Environment

Identified short-term needs for the project region Slovenia:

- Bridging RTD & Companies, sectorial TT / KT developing
- Promotion of collaboration of FBI with other industries (with focus on digitalization)
- Financing support of relevant RTD and intermediary institutions in sector

5.3 OBJECTIVES AND EXPECTED IMPACTS

The following section describes the objectives and expected impacts related to the short-term needs described in previous section 5.2..

ACTION	OBJECTIVES	EXPECTED IMPACTS
Action 1	To promote show best cases of product/services development (innovative, design,..) and raising awareness among companies about added value of collaboration with RTD organizations and cross-sectorial collaboration.	Attraction of investors, companies from other sectors and international value-chains actors.
Action 2	To give valuable inputs to sectorial strategic documents regarding the strengthening the sectorial supporting organizations with the aim to raise innovativeness of the companies.	Assure attractive sectorial environment for (cross-sectorial) development of the companies' innovative products and services with collaboration with RTD organizations
Action 3	Achieve a higher level of quality, durability and the safety of wood constructions.	Contribution to increase of use of wood in constructions in outdoor use
Action 4	To establish sectorial TT / KT service.	Higher level of RTD organizations & Companies development collaboration, new IPs.
Action 5	To develop DIH service for supporting digitalization of the Slovenian FBI.	Acceleration of the digital transformation of the Slovenian FBI.
Action 6	To assure financing support for activities of the intermediary institutions in the sector according to the sectorial strategy and action plan implementation.	More coherent implementation of the sectorial strategy and action plan, better support to the competitiveness raising of the Slovenian FBI companies.

5.4 LINKS WITH OTHER FORESDA OUTCOMES

This subchapter describes the linkages between the LIAP and other WP and their outcomes of FORESDA project and how the related actions defined in the LIAP will be addressed within other work packages of the project.

Activities performed in the framework of the Pilot Innovation Environment (WP4) will at least partially address the needs and actions defined in the LIAP. The Slovenian pilot "Performance of wood and wood-based composites in outdoor applications" is to be used as a platform for monitoring and analysing the wood performance in outdoor wood constructions, for initiating the proper legislation in this field and for promotion of the right use of wood and wood-based composites in wood constructions.

In the framework of WP5, the needs will be addressed within the activities of the Collaborative Networks (CNs) and Innovation Projects (IPs), on which we will foster cross-sectorial collaboration and transfer of knowledge to companies.

In the framework of WP6, the needs will be addressed through mentoring, workshops and study visits to PIEs which will assure capacity building of the PPs organizations and also of the sectorial supporting organization network. Outcomes of the implementation of the LIAP and mentoring will be evaluated, lessons learnt will be drawn and transferred to the policy level stakeholders. The results will be shared with other PPs. Long-term strategies will be adjusted and a sustainability plan developed at the consortium level.

6. ACTIONS AND SCHEDULE

The following section contains information on the planned actions corresponding with the previously identified short-term needs, objectives and expected impacts of the respective LIAP.

Priority Area 1 – Image & Lobbying

Identified short-term needs for the project region Slovenia:

Action 1. - International promotion of the Slovenian wood product

- WIC and SFI, with support of Slovenian ASP, interested companies and other sectors' supporting organizations, will organize special event for international promotion of the Slovenian innovative wood products, if possible developed in cross-sector collaboration or with transfer of knowledge from RTD organizations to companies.

Objectives: To promote show best cases of product/services development (innovative, design,..) and raising awareness among companies about added value of collaboration with RTD organizations and cross-sectorial collaboration.

Expected impacts: Attraction of investors, companies from other sectors and international value-chains actors.

Expected date of achievement of the activities: June 2018

Priority Area 2 – Policy & Legislative Support

Identified short-term needs for the project region Slovenia:

Action 2. - FBI sector strategy preparation and action plan updating

- WIC and SFI will give inputs for sector strategy preparation and action plan updating with special focus on cross-sectoral collaboration and

innovativeness. Inputs will be developed also on the basis of the FORESDA outputs and deliverables. Slovenian ASP as sectorial policy maker, will take care for integration of the given inputs in related policy documents.

Objectives: To give valuable inputs to sectorial strategic documents regarding the strengthening of the sectorial supporting organizations with aim to raise innovativeness of the companies.

Expected impacts: Assure attractive sectorial environment for (cross-sectorial) development of the companies' innovative products and services with collaboration with RTD organizations.

Expected date of achievement of the activities: June 2019

Action 3. - Initiative for new legislation related to the FBI (with focus on durability of wood in constructions)

- SFI and WIC will give initiative through Slovenian ASP for update of the national regulation and guidelines for the timber construction and setting-up the wood moisture monitoring of wood urban equipment. Additionally, a special training will be organized for architects, project designers and contractors about performance and properties in wood constructions, particularly when using it outdoors.

Objectives: Achieve a higher level of quality, durability and the safety of wood constructions.

Expected impacts: Contribution to increase of use of wood in constructions in outdoor use.

Expected date of achievement of the activities: February 2019

Priority area 3 - Funding & Business Environment

Identified short-term needs for the project region Slovenia:

Action 4. - Bridging RTD & Companies with sectorial TT / KT developing

- With the support of the Slovenian ASP, WIC will develop a special to FBI sector oriented service for transfer of technologies and knowledge to the industry (TT / KT). Development of the TT / KT service will be a part of the mentoring activities in WP6.

Objectives: To establish sectorial TT / KT service.

Expected impacts: Higher level of RTD organizations & Companies development collaboration, new IPs.

Expected date of achievement of the activities: June 2019

Action 5. - Promotion of collaboration of FBI with other industries (with focus on digitalization)

- WIC will become member of the national Digital innovation hub (DIH), recognized and supported by EC as part of pan-European network of Digital Innovation Hubs and will develop a special service for supporting the digital transformation of the Slovenian FBI companies. Development of the service will be part of the mentoring activities in WP6 and supported by side of Slovenian ASP.

Objectives: Development of DIH service for supporting the digitalization of the Slovenian FBI.

Expected impacts: Acceleration of the digital transformation of the Slovenian FBI.

Expected date of achievement of the activities: June 2019

Action 6. - Financing support of relevant RTD and intermediary institutions in sector

- WIC and SFI, with collaboration of other actors of the Slovenian FBI sector supporting organizations, will prepare the basis for special programme or public call for activities of the sectorial supporting organizations / network. The

document will be transferred to the Slovenian ASP as national sectorial policy level actor.

Objectives: To assure financing support for activities of the intermediary institutions in the wood industry sector according to the sectorial strategy and action plan implementation.

Expected impacts: More coherent implementation of the sectorial strategy and action plan, better support to the competitiveness raising of the Slovenian FBI companies.

Expected date of achievement of the activities: October 2018

The timeline of the planned action and activities:

ACTIONS & SCHEDULE → Timeline ↓ Action Description	Project Period 3 (1-6/2018)		Project Period 4 (7-12/2018)		Project Period 5 (1-6/2019)	
	1-3	4-6	7-9	10-12	1-3	4-6
Priority area 1 - Image & Lobbying						
Act1-International promotion of the Slovenian wood product						
Priority area 2 - Policy & Legislative Support						
Act2-FBI sector strategy preparation and action plan updating						
Act3- Initiative for new legislation related to the FBI (with focus on durability of wood in constructions)						
Priority area 3 - Funding & Business Environment						
Act4-Bridging RTD & Companies with sectorial TT/KT developing						
Act5-Promotion of collaboration of FBI with other industries (with focus on digitalization)						
Act6-Financing support of relevant RTD and intermediary institutions in sector						

7. KEY IMPLEMENTATION STEPS

This chapter highlights the key implementation steps/phases of the LIAP.

Action 1. - International promotion of the Slovenian wood product

Key implementation steps / Deadline or time duration:

1. Preparation / March 2018

- to create concept and format of the event, create a visual identity and promotion material, set-up of communication tools...

2. Realization / June 2018

- organization, promotion and realization of the event
- development of further activities upon the event results and key outcomes

3. Dissemination / June - July 2018

- Dissemination of conclusions, online and physically

Action 2. - FBI sector strategy preparation and action plan updating

Key implementation steps / Deadline or time duration:

1. Preparation / October 2018

- Communication with stakeholders and policy level (ASP) in the Slovenian FBI to prepare starting point for the strategy inputs and action plan updating.

2. Realization: June 2019

- Create inputs for the Slovenian FBI strategy and action plan updating with communication with relevant private and public stakeholders
- Transfer the inputs to the policy level (ASP) and relevant working groups

Action 3. - Initiative for new legislation related to the FBI (with focus on durability of wood in constructions)

Key implementation steps / Deadline or time duration:

1. Preparation

- to collect data and materials about wood service life and check existing guidelines /
January – March 2018

2. Dissemination and coordination

- Coordination with stakeholders and preparation the draft of new legislation (wood
construction companies) / April - October 2018

- online and physically event for architects

3. Realization

- event was held / November 2018

4. Capitalisation

- preparation of final version of the new workshop / December – February 2019

Action 4. - Bridging RTD & Companies with sectorial TT/KT developing

Key implementation steps / Deadline or time duration:

1. Preparation / October 2018

- concept and format preparaton of the service

- acquiring knowledge and needed resources for the service set-up

2. Realization / June 2019

- organization of the service, setting-up the procedures, training the staff

- building the Customer Management System, web site, acquiring the TT/KT cases

3. Dissemination / January – June 2019

- Dissemination and promotion of new service among the SMEs in the sector

Action 5. - Promotion of collaboration of FBI with other industries (with focus on digitalization)

Key implementation steps / Deadline or time duration:

1. Preparation / October 2018

- concept and format preparaton of the DIH service

- acquiring knowledge and needed resources for the DIH service set-up

2. Realization / June 2019

- organization of the DIH service, setting-up the procedures, training the staff

- building the Customer Management System, web site about digitalizatton cases

3. Dissemination / January – June 2019

- Dissemination and promotion of new service among the SMEs in the sector

Action 6. - Financing support of relevant RTD and intermediary institutions in sector

Key implementation steps / Deadline or time duration:

1. Preparation / May 2018

- Communication with relevant RTD and intermediary institutions and policy level (ASP) in the Slovenian FBI to prepare starting point for the programme of Slovenian FBI supportive network development.

2. Realization: October 2018

- Create proposal of the programme of Slovenian FBI supportive network development
- Transfer the programme proposal to the policy level (ASP)

8. RESPONSIBILITIES

The main responsible partners for the preparation and implementation of the LIAP in Slovenia are WIC and SFI as PP of the FORESDA project. They will organise different activities and act as unifying link among stakeholders and ASP. Additionally, WIC and SFI are responsible for the dissemination of activities and results to a larger community within Slovenia.

Other organisations will be involved in the activities, depending on the topic and interests behind the objectives of the actions.

Representatives of relevant SMEs, members of FORESDA local working group will also have an important impact through suggestions and proposals to be included in LIAP.

The Chamber of Commerce and Industry of Slovenia will have an important role in the dialogue with the decision makers, “transformation of the proposals into legislation”.

University of Ljubljana, Biotechnical Faculty, Department of Wood Science and Technology will be responsible to integrate the concept of LIAP into the educational process and their RTD activities.

9. TARGET GROUPS AND STAKEHOLDERS

This chapter contains information on the target groups and stakeholders according to the each planned action.

Action 1. - International promotion of the Slovenian wood product

Target Groups:

- Slovenian FBI and non-FBI SMEs that have interest in interational RTD and commercial (cross-sectorial) collaboration related to wood products and services.
- Foreign Companies, Architects, Associations, Investors, wood value-chain stakeholders

Stakeholders / Interest:

- Companies in Slovenian FBI industry / To offer their products/services internationally, take part in international value-chains, to take part in nternational RTD projects
- Foreign Customers, Intermediaries and Investors / To find new poducts, services, technologies, knowledge
- RTD experts / To networking in order to enable easier access to the companies

Action 2. - FBI sector strategy preparation and action plan updating

Target Groups:

- Slovenian FBI stakeholders
- Policy level

Stakeholders / Interest:

- FBI Stakeholders (SMEs, Associations, Cluster(s), RTD institutions) / To get a clear Strategy of the FBI sector development
- Policy level / To get public strategic and operational document as basis for FBi sector development
- Public audience / to gain a better insight in the present challenges of the FBI sector

Action 3. - Initiative for new legislation related to the FBI (with focus on durability of wood in constructions)

Target Groups:

- SMEs in wood constructions and wood prefabricated buildings
- Architects, designer of building and/or constructions
- Green Public Procurement Stakeholders

Stakeholders / Interest:

- SMEs, Clusters and Associations / To assure transparent and stable conditions for outdoor wood constructions use
- Public investors / To promote Green Public Procurement with wood use, to assure transparent legislation / guidelines and standards for safe and durable outdoor wood constructions

Action 4. - Bridging RTD & Companies with sectorial TT/KT developing

Target Groups:

- SMEs, clusters and associations in Slovenian FBI
- RTD institutions

Stakeholders / Interest:

- SMEs, clusters and associations / To develop competitive products / services
- RTD institutions / To apply research and development results in the products services
- Policy level / to assure effective transfer of knowledge in the productive sector, raising added-value of the products and employment

Action 5. - Promotion of collaboration of FBI with other industries (with focus on digitalization)

Target Groups:

- FBI and non-FBI SMEs that have interest in the cross-sectoral collaboration (with focus on digitalization)

Stakeholders / Interest:

- SMEs, clusters and associations / To gain digital transformation of their processes / services / products

Action 6. - Financing support of relevant RTD and intermediary institutions in sector

Target Groups:

- RTD and intermediary institutions in Slovenian FBI sector
- Slovenian FBI policy level institutions

Stakeholders / Interest:

- RTD and intermediary institutions / To adopt their services and activities to the need of SMEs, gain stable financial and programme framework
- Public / To assure strong sectorial supportive network for strategy and action plan realization, to assure support to sector development

10. RESOURCES AND BUDGET

This chapter contains information on what needs have to be fulfilled / assured in order to conduct the LIAP.

Action 1. - International promotion of the Slovenian wood product

- Human – team of PP3, SMEs, Sector Associations, public Agency for internationalization (5.000 EUR of the PP3 Staff cost from FORESDA budget)
- Facilities – 1.000 EUR for room and equipment for the event
- Financial – 8.000 EUR of public and private funding; budget for catering, travel costs of participants, organization of the event; resources for building of visual identity, marketing ,..

Action 2. - FBI sector strategy preparation and action plan updating

- Human – 3.000 EUR Staff Cost of WIC and SFI to perform and support the planned activities

Action 3. - Initiative for new legislation related to the FBI (with focus on durability of wood in constructions)

- Human – 3.000 EUR Staff Cost of SFI to perform and support the planned activities
- Financial – 6.000 EUR for training for architects, meetings with SMEs, preparation of the proposals for new legislation

Action 4. - Bridging RTD & Companies with sectorial TT/KT developing

- Human – 8.000 EUR Staff Cost of WIC to perform and support the planned activities
- Facilities – 1.000 EUR for CRM System building, web site upgrading, promotion material
- Financial – 9.000 EUR of public and private funding for service performing in starting period of 6 months.

Action 5. - Promotion of collaboration of FBI with other industries (with focus on digitalization)

- Human – 6.000 EUR Staff Cost of WIC to perform and support the planned activities
- Financial – 9.000 EUR of public and private funding for service performing in starting period of 6 months.

Action 6. - Financing support of relevant R&D and intermediary institutions in sector

- Human – 4.000 EUR Staff Cost of WIC and SFI to perform and support the planned activities

11. COMMUNICATION ACTIVITIES

Dissemination activities related to presenting LIAP will be performed in several different forms.

Involved Slovenian PPs (Slovenian Forestry Institute and Wood Industry Cluster) with subcontracted Department of Wood Science and Technology, Biotechnical Faculty, University of Ljubljana) will spread the information on LIAP on their web pages and through their social media pages (Facebook, LinkedIn, Research Gate). The news about LIAP will be sent also to the e-mails of all FORESDA local working group members, sectorial associations and to the relevant SMEs, RTD institutions and the supporting organizations.

An article with information about development and activities within LIAP will be published in a national professional journal “Gozdarski vestnik” (printed in 600 editions and also available on-line), “Lesarski utrip” (available online) and over mailing of the CCIS.

SFI and WIC will disseminate LIAP also through direct contact with target groups at workshops, fairs and conferences. At least one workshop will be organized within the international DOM fair, annually organized in March. Additionally, some smaller events will be organised.

Special dissemination will be also with public policy makers institutions and public media with direct mailing, communication and presentations.

12. RISK ANALYSIS

DESCRIPTION OF POSSIBLE RISK	PROBABILITY OF OCCURRENCE	IMPACT	REMEDIAL ACTIONS
To be unsuccessful in the attraction of SMEs, other target groups and stakeholders	0.4	0.8	To communicate LIAP among SMEs and other target groups and stakeholders
Lack of interest of the policy level	0.4	0.8	To organize bilateral meetings with policy level representatives relevant for FBI
Lack of public and private funding	0.6	0.6	To prepare alternative scenarios for the activity realization
Lack of time for the activities realization	0.5	0.8	To assure staff availability, additional staff, alternative scenarios of realization

13. APPENDIX I:

LIAP SLOVENIA - TABLE OVERVIEW

LOCAL ACTION PLAN DETAILS	TIMELINE					OBJECTIVES	TARGET GROUPS	ESTIMATED BUDGET (EUR) - outside the FORESDA
ACTION & KEY IMPLEMENTATION STEPS	PP 3 (1-2/16) 01-03	PP 4 (4-6/16) 04-06	PP 4 (7-12/16) 07-09	PP 5 (1-2/16) 10-12	PP 5 (1-2/16) 01-03			
1. International promotion of the Slovenian wood product						To promote best of results of development and raising awareness among companies about added value of collaboration with RTD organizations and cross-sectorial collaboration.	Slovenian FBI and non-FBI SMEs - Foreign Companies, Architects, Associations, Investors, wood value-chain stakeholders	9.000
Preparation								
Realization								
Dissemination								
2. FBI sector strategy preparation and action plan updating						To give valuable inputs to sectorial strategic documents regarding the strengthening the sectorial supporting organizations with aim to raising innovativeness of the companies.	Slovenian FBI stakeholders - Policy level	0
Preparation								
Realization								
3. Initiative for new legislation related to the FBI (with focus on durability of wood in constructions)						To contribute to adaptation an noveling the national legislation and guidelines for timber construction in outdoor use.	SMEs in wood constructions and wood prefabricated buildings - Architects, projectants - Green Public Procurement Stakeholders	6.000
Preparation								
Dissemination								
Realization								
Capitalization								
4. Bridging RTD & Companies, sectorial TT / KT developing						To establish sectorial TT / KT service.	SMEs in Slovenian FBI - RTD institutions	10.000
Preparation								
Realization								
Dissemination								
5. Promotion of collaboration of FBI with other industries (with focus on digitalization)						To develops service for supporting digitalization of the Slovenian FBI.	FBI and non-FBI SMEs that have interest in the cross-sectorial collaboration (with focus on digitalization)	9.000
Preparation								
Realization								
Dissemination								
6. Financing support of relevant R&D and intermediary institutions in sector						Assure financing support for activities of the intermediary institutions in sector according to the sectorial strategy and action plan implementation.	RTD and intermediary institutions in Slovenian FBI sector - Slovenian FBI policy level institutions	0
Preparation								
Realization
