

D.T3.1.1
Regional Policy Agendas
D.T3.2.1
Regional Ecosystem Mapping

Poly4Eml/Anteja ECG d.o.o.
2021

Project Information

Project Title: GoDanuBio - 'Participative Ecosystems for fostering the revitalization of rural-urban cooperation through governing Danube Circular Bioeconomy'

Project code: DTP3-471-4.1

Lead partner: BIOPRO Baden-Württemberg GmbH

Start of the project: 01/07/2020

Duration: 30 months

<http://www.interreg-danube.eu/approved-projects/godanubio>

Deliverable Information

Author/-s: PPs

Deliverable nr.: D.3.1.1., D3.2.1.

Submission date: 2021

Dissemination level: Public

Version	Date	Content	Elaborated by	Reviewed by
V1	30/072021	Methodology	Poly4EmI/Anteja ECG d.o.o.	BIOPRO

Neither the European Commission institutions and bodies nor any person acting on their behalf may be held responsible for the use that may be made of the information contained therein.

Methodology

The purpose of this memo is to provide the methodology for D.T3.1.1. Regional Policy Agendas and D.T3.2.1. Regional Ecosystem Mapping.

The structure of activities was presented and discussed with GoDanuBio BrainTrust on 23rd, July 2021.

To date, the partners have completed WPT1 which provide inputs for deliverables D.T3.1.1. and D.T3.2.1.

The two actions described below should be addressed and completed by partners by 27th September 2021.

Please note that these actions are only the first step towards the deliverables, followed by the second step, which will be drafting the reports / deliverables D.T3.1.1. and D.T3.2.1 in word format. The templates for the deliverables in word format will be provided by Anteja in due time (e.g. after the implementation of the transnational dialog event, planned for end of October 2021).

ACTION I: Define all open calls relevant to Circular Bioeconomy and Participatory governance in your region (D.T3.1.1)

All partners list upcoming funding programmes in their region which are planned to be open in a period October 2021 – June 2022.

Partners should use the attached excel Regional Policy Agendas (D.T3.1.1), where they provide the following information about each funding programme:

1. Name of the programme
2. Programme owner
3. Funding agency (managing authority)
4. Expected volume of the programme
5. Scope – area: bioeconomy, rural development, participatory governance, agriculture, circular economy etc.
6. Programme objectives: Applied R&D, technology transfer, feasibility studies, value chain development, governance etc.
7. Beneficiaries:
 - Private businesses,
 - Academia
 - Networks / cluster / Business Support Organisations
 - Other innovation intermediaries
 - NGOs
 - Other e.g. Local Action Groups, LEADER groups
8. Objectives

9. Funding modalities: e. g. Grant, Loan

10. Funding amount (in EUR)

ONLY ONE EXCEL FILE PER REGION should be provided. In case several partners are from the same region, they prepare ONLY ONE EXCEL together.

Approach

- Partners identify programmes / calls by reviewing documents from WPT1.
- Partners organize meetings with relevant programme owners, funding agencies and the national platforms/Interministerial groups (BAIMG) on bioeconomy set by the [BioEastUp project](#) in order to obtain required information. If necessary, consider also the [CELEBIO](#) ambassadors for these meetings.
- For partners taking part actively in **PA8** and **PA10** of the **EUSDR**, any information relevant for the aim of this deliverable, should be added.
- Partners provide excel document with requested information listed above. It is mandatory to use the excel file.

Repository of data and information & deadline

- Excel template: Regional Policy Agendas (D.T3.1.1) attached
- **The excel file should be uploaded by each region to [Nextcloud](#) dedicated folders WP 3 by 27th September 2021**
- Current information on **BioEastUp** project can be through [this link](#) and in the Appendix
- Information about the **CELEBIO** ambassadors is provided through [this link](#) and in the Appendix

ACTION II: Define Regional Ecosystem Map (D.T3.2.1)

Partners should prepare a list of stakeholder contacts - **responsible people** - for strategies and programmes relevant to circular bioeconomy with impact on demographic change and sustainable rural development. Stakeholders related to participatory governance, as a tool for the deployment of the bioeconomy / circular economy in the participating regions, should be also considered. All relevant documents have been gathered in WPT1, thus partners should revise documents to define a regional ecosystem map.

In case this information is not available, partners should contact strategy/policy/programme owners to elaborate the map. Partners should also get in touch with country representatives of the **BioEastUp**

project and/or review the mapping done by **CELEBIO** project (in the case of BG, CZ, HR, HU, SK and SI), to complete accordingly the regional maps.

Partners use the attached excel template Regional Ecosystem Mapping (D.T3.2.1), where they provide the following information (in provided sheets)¹:

1. Strategies owners: name of institution, name of responsible person with email, phone
2. Programme owners: name of institution, name of responsible person with email, phone
3. Volume in EUR of the relevant programme
4. Managing authorities²: name of institution, name of responsible person with email, phone

ONLY ONE EXCEL FILE PER REGION should be provided. In case several partners are from the same region, they prepare ONLY ONE EXCEL together. It is mandatory to use the excel.

Repository of data and information & deadline

- Excel template: Regional Ecosystem Mapping (D.T3.2.1) attached
- **The excel file should be uploaded by each region to [Nextcloud](#) dedicated folders WP 3 by 27th September 2021**
- Current information on **BioEastUp** project can be through [this link](#) and in the Appendix
- Information about the **CELEBIO** stakeholders mapping is provided through [this link](#) and in the Appendix

Further proceedings

IMPORTANT: Anteja ECG will organize 3 webinars (Q&A sessions) in August and September for partners, to provide further information on the task and answer questions.

Please use doodle and select the dates that suit you:

https://doodle.com/poll/wvhx584axewvihfm?utm_source=poll&utm_medium=link

Anteja ECG will make 3 groups according to your availability, so it's recommended that partners from the same region vote for the same dates.

¹ Please consider the General Data Protection Regulation (EU) 2016/679 (GDPR) when sourcing this information

² In some regions programme owners might be the same as managing authorities.

UPDATE ABOUT ACTIVITIES OF THE NATIONAL PLATFORMS FOR BIOECONOMY STRATEGY DEVELOPMENT IN THE BIOEAST COUNTRIES

Supported by the BIOEASTsUP project the 11 BIOEAST member countries have established national platforms aiming to facilitate the transformation to sustainable circular bioeconomy. These platforms consist of inter-ministerial groups (BAIMG) setting the priorities for the development of the bioeconomy in each country and national stakeholder groups (NSG) and BIOHubs including experts from research, industry as well as practitioners and representatives of the general public. In total, more than 400 stakeholders are already engaged in the national platforms in the 11 BIOEAST countries.
