

Danube Transnational Programme

Capitalization Thematic Pole 6

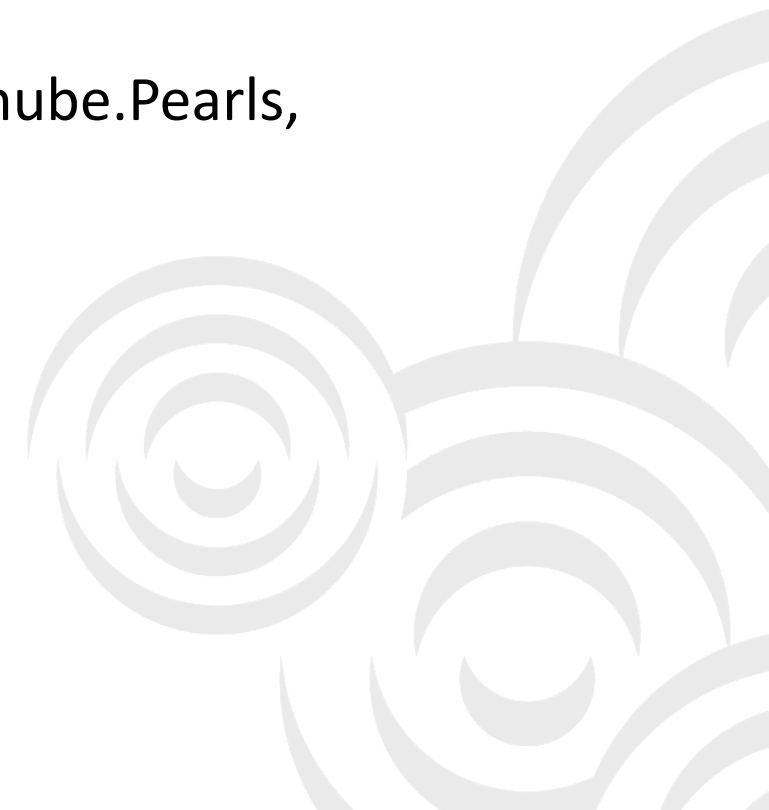

Sustainable Transport Systems and Mobility

Marko Govek,
Municipality of Velenje

LinkingDanube, 27. 3. 2017

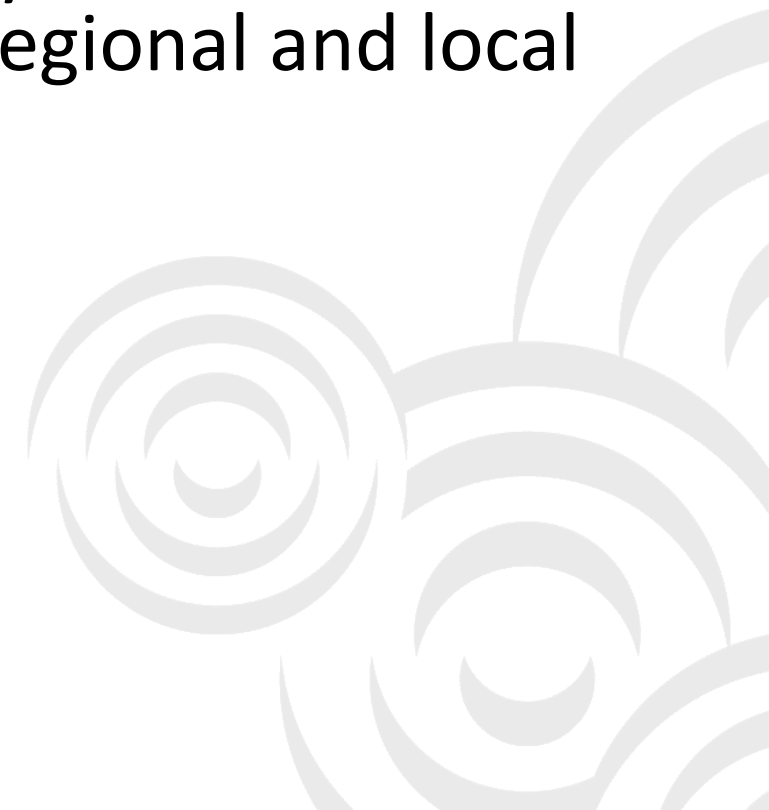

Presentation overview:

- Thematic pole 6 projects
(CHESTNUT, CityWalk, eGUTS, Linking Danube, Transdanube.Pearls,
TRANSGREEN)
- Project Synergies
- Pole 6 capitalization in practice

The common challenges are related to wider use of environmentally-friendly and safe transport systems and modes in order to contribute to more sustainable regional and local mobility.

Competitors become partners

Project presentation: **CHESTNUT, CompreHensive Elaboration of STRategic plaNs for sustainable Urban Transport**

CHESTNUT contribution - keywords: SUMP in FUA level, better integrated PT, soft mobility modes on rural - urban level

- Development of joint methodology to develop “regional /FUA” mobility scenarios;
- drafting Sustainable Urban Mobility Plans (SUMPs) at FUA level (support to new policy making with a special focus on people)
- SUMP development – training seminars
- implementing 12 pilot actions involving sub-groups of project partners.

Project presentation: **CityWalk**, Towards energy responsible places: establishing walkable cities in the Danube Region

CityWalk contribution: keywords, Active mobility, Walking:

- Guidebook for Designing of Walkability Plans, training courses, workshops
- 10 Local walkability plans
- Index measuring the level of walkability
- Walkability guide
- Online walkability tool
- 10 Pilots - according to local walkability plans
- Policy proposal package

Project presentation: **eGUTS, Electric, Electronic and Green Urban Transport Systems**

eGUTS contribution – keywords: e-mobility in Danube area, e-mobility app

- Regional Strategic Platforms
- eGUTS Standards
- DTP eMob Strategy
- Individual Local Action Plans for eGUTS Cities
- Trainings on elaboration of Local Action Plans
- eGUTS APP
- 3 types of Pilot Actions in DTP Cities & Regions (charging infrastructure, e-vehicles, electric PT)

Project presentation: **LinkingDanube - Linking transnational, multimodal traveller information and journey planners for environmentally-friendly mobility in the Danube Region**

LinkingDanube contribution - key words: cross: border Public transport, sustainable mobility journey planner

- Concept for transnational Journey Planners
- Technical Tool (Journey Planners)
- Danube Scout (Website/App)
- Pilot Action
- Strategy Workshop
- Local learning and dissemination Workshops
- Exploitation Strategy

Project presentation: **Transdanube.Pearls - Network for Sustainable Mobility along the Danube**

Transdanube.Pearls - key words: Sustainable mobility & tourism, multimodality

- Common Standards
- Network Implementation Strategy
- Management organization
- Guidelines/Tools for Mobility Plans and Services
- Sustainable Regional Tourism Mobility Plans SRTMPs
- Testing new/improved mobility services
- Guidelines/Tools for Mobility Information Services
- Testing Mobility Information Centres
- Interfaces for exchanging mobility information
- Trainings, mutual learning workshops & visits

Project presentation: **TRANSGREEN - Integrated Transport and Green Infrastructure Planning in the Danube-Carpathian Region for the Benefit of People and Nature**

TRANSGREEN - key words: safe and fauna friendly road and rail infrastructure, planning, ecological corridors

- Web-based database
- Planning toolkit
- Workshops on "Integrated transport infrastructure"
- Catalogue of measures for each pilot site
- Actions focusing on conflict minimization
- Environmental Impact Assessment training events
- Strategic Action Plans

Project synergies

(stakeholders, data exchange, methodologies, outputs, policies, strategies, action plans, pilots, joint promotion and dissemination)

CHESTNUT + LinkingDanube common points:

- FUA SUMP : better connected rural – urban PT and soft mobility modes + PT on demand – better, more useful travel planner app
- Inclusion of CHESTNUT pilot cities to LD journey planner

CHESTNUT + CityWalk common points:

- FUA SUMP : park&walk – emphasis on walking / cycling as a preferred last mile mode
- Pilot actions

CHESTNUT + eGUTS common point:

- FUA SUMP : Regional strategic platform (cooperation of regional key stakeholders in policy & measures formulation)
- E-mobility, e-car sharing models – SUMP measure
- Pilot actions

CHESTNUT + Transdanube.Pearls:

- Tourstic promotion of „CHESTNUT regions“
- Better cooperation of mobility operators on regional level

CHESTNUT + TRANSGREEN:

- FUA SUMP – people and environment friendly traffic infrastructure
- Improved policy formulation and stakeholders inclusion - adapting of planed infrastructure projects

CHESTNUT + eGUTS common point:

- FUA SUMP : Regional strategic platform (cooperation of regional key stakeholders in policy & measures formulation
- E-mobility, e-car sharing models – SUMP measure

Sustainable Transport Systems and Mobility Capitalization DtP Pole in action

1. Internal pole communication protocol

- email, phone, web conferencing, annual meetings
- Joint event calendar

2. External pole communication

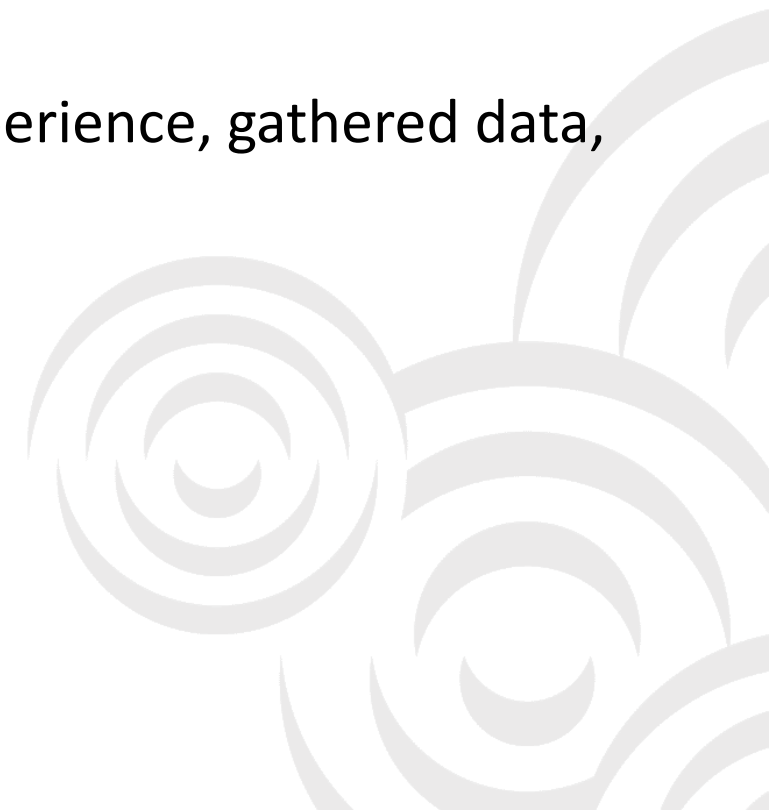

- Common social media profiles - linkedIN
- Pole 6 newsletter
- Common contact databases

Sustainable Transport Systems and Mobility Capitalization DtP Pole in action

3. Peer review / benchmarking / cross-fertilization

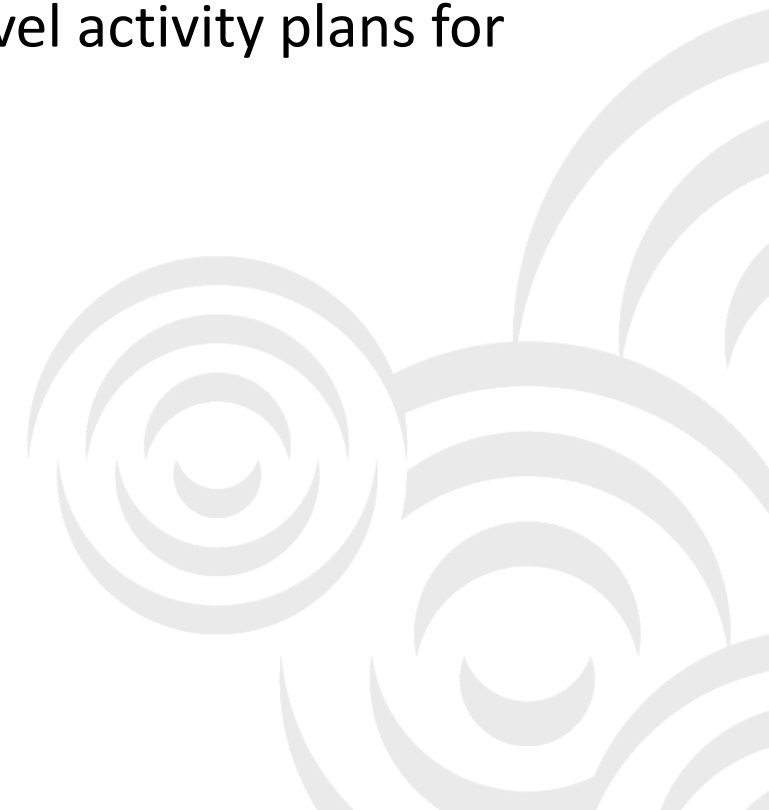

- Structured list of identified synergies between projects
- Facilitating of key (ASP) stakeholder cooperation
- Annual meeting – benchmarking workshops (exchange of experience, gathered data, methodologies)
- Joint policy paper (2019)

Sustainable Transport Systems and Mobility Capitalization DtP Pole in action

Situation March 2017 (all projects cooperate)

- Detailed capitalization roadmap for 2017 under construction in April 2017
(KOM finished, PM structures organized, detailed project level activity plans for 2017)
- Outlined roadmap for 2018, 2019 – April 2017

Thank you for your attention!
