

Priority Axis 1 - Innovative and socially responsible Danube region

Specific Objective 1.2 - Increase competences for business and social innovation

RESTRICTED

In the 3rd Call, under SO 1.2, the DTP will support projects addressing:

- Strengthening the capacity of the so-called support organisations (e.g. employment agencies, trade unions, labour market organisations) to provide innovative entrepreneurial training and education to individuals in the framework of the knowledge-based economy
- Developing innovative social services able to better meet social needs and to provide services in general interest

FURTHER USEFUL INFORMATION

- Specific attention should be given to the needs and challenges of the **employment market** by reinforcing the **cross-disciplinary links among relevant players** such as policy makers, education and training facilities, research sector, business and industry sector and labour market organisations, including employment agencies and trade unions. Their effort should build towards providing **innovative entrepreneurial training and education systems** to active individuals as part of the **knowledge-based economy**.
- Specific attention should be given to **social innovation and services** able to better meet social needs in areas such as education and health or other similar domains of social interest and impact.

Note: Since this SO is pursued under PA1 (research and innovation), the accent falls on “innovative learning systems”. The broader fields of education, vocational education and training and lifelong learning without direct link to innovation are to be addressed under SO 4.1.
